

Hashem Al Drous

Montréal, QC | hashem.aldrous@mail.mcgill.ca

Education

McGill University

Montréal, QC

B.Sc. Computer Science - Artificial Intelligence; Minor in Mathematics 2026–2029 (expected)

- U1 student; entered McGill with 30 credits of advanced standing from the International Baccalaureate.

How I Use Claude

- Before a larger project, I set up a project-specific `CLAUDE.md` and `.claude/` config with the goal, constraints, expected output, and things Claude should not do.
- I keep the work in small steps, call out weak logic directly, and start a new chat with a short handoff summary when the thread gets too long.

Leadership & Community Building

A Step and a Tale Early Intervention Center

Madaba, Jordan

Co-Founder

2025–Present

- Helped launch and run a multidisciplinary early-intervention center; the team has now delivered 1,400+ therapy sessions.
- Supported therapist recruitment, logistics, website operations, and local outreach.

Physics Club & School Mathematics Competition

Amman, Jordan

Founder

2024–2026

- Started a weekly physics club that grew to 40+ students, breaking down difficult topics and creating study material for students who were struggling.
- Created the school's first mathematics competition, wrote the questions, and grew participation to 120+ students.

IBQhub - IB Mathematics & Physics Question Bank

Jordan

Founder

2025–2026

- Created an education resource used by 300 students, organizing practice questions and tailored explanations for independent study.

Asamiah Model United Nations (ASMUN)

Amman, Jordan

Head of Marketing

2024–2026

- Cold-called 25+ companies, secured Bank al Etihad as the main sponsor, and coached teammates on pitching and negotiation.

Hope Initiative

Jordan

Volunteer Fundraiser

2025

- Helped raise 3,000 JOD for orphans turning 18 by presenting to companies and helping shape sponsorship packages.

Youth Media & Political Literacy Club

Amman, Jordan

Founder & President

2025–2026

- Started an 8-member student media group and ran a two-article-per-week publication focused on making complex topics clear to other students.
